

## Medieval Adventure

Medieval Adventure is a fabulous themed event. Participants will instantly realize they've been taken into the Middle Age period. Within this surprising scenario, each team success will depend on how these behave following traditional costumes and tackling Medieval Challenges.

The event takes place in an astonishing medieval castle 90 min away from Barcelona city centre. The beautiful natural setting where the castle is located is ideal for outdoor and orienteering challenges. However, if you wish, we are happy to find an alternative venue anywhere else for your Medieval Adventure.

Participants formed into teams will try to conquer the castle and pay tribute to the enigmatic stunning queen. The final mission will be to take over the watchtower, where the King keeps the booty he's gathered year-on-year by dubious means. Before making it to the watchtower some tough difficulties must be tackled.

Thus, teams must find a way to pass through the crocodile pit and knock down the walls with a hand-made ballista, but once they are inside the real challenge begins: the castle is inhabited by all sorts of medieval characters who will test the teams on various Team Building challenges.

How would your team manage an audience with the Kings or an interview with the Inquisition? It will not be easy either to escape from the dungeons or to defeat the Templar Knights using medieval weapons, and besides that you will have to deal with other surprises and dire situations such as encounters with witches, beggars, fairies...

And after a crusade like this it's mandatory an old fashion banquet in the castle plenty of food and beverage. The banquet will be hosted by the Kings who will be honoured to invite all participants and characters together as their most welcomed guests.

Medieval Adventure... iA truly unforgettable event!
