

## Treasure Hunt

Treasure Hunt is one of our five star events. Its particular structure makes it suitable for almost any setting, duration and client group profile.

The event can run in any of the following Uno+Uno Team ready-made locations: Madrid, London, Paris, Prague, Barcelona, Granada, Segovia, Toledo and North of Morocco. Nonetheless our team will be quite happy to plan a new one in your favourite destination.

Participants formed into teams and equipped with GPS and walkie talkie handsets will navigate their way in the pursue of little clues along the planned route. The target is, of course, to discover the treasure chest and open it.

Our Treasure Hunts are extraordinarily interactive, involving meeting inhabitants, discovering singular settings, unfolding the beauty of little streets or emblematic places...

Besides that, the event includes actors/entertainers performing roles of the most well known historical characters of the destination. These characters will unexpectedly pop up along the route to interact with the teams getting them promptly involved in building challenges. Teams' performances will be rewarded with gems or coordinates which may turn out to be vital in order to find and open the treasure chest.

Treasure Hunt is a highly appealing team building event involving tourism, orientation, communication, information sharing, problem solving, planning, competition, technology (GPS devices and walkie talkies handsets, digital cameras), intriguing challenges requiring intelligence or cultural knowledge and ... !a sharp sense of humour!

Reward your team with a five star Treasure Hunt and enable your colleagues to team up in a different way. Treasure Hunt will leave a kind memory and a truly singular knowledge of the destination in their minds!
